Learn what our customers are saying to their local Kinetico Dealers

November 2017

Hi Nick,

Just some feedback on the water softener.

The water softener has really made a significant difference to our lives. We have lived in Milton Keynes for 3 years now and really felt the difference from the London water and Milton Keynes hard water. We looked at so many different water softeners but was having trouble on deciding which to go for.

A friend recommended Kinetico, thus we decided to call up and find out more. Nick came along and told us everything we needed to know and even showed us the difference the water made by being filtered through the machine verses normal tap water. When the water was filtered you could instantly see the difference it made being filtered through the Kinetico.

Since using the Kinetico water softener, we have really noticed and felt the difference between the hard water that we use to have and the now silky soft water, our skin feels so much better.

We used to feel very irritated as the clothes never felt soft even when we added fabric softener. Now that has all changed with the water softener. The water softener has made such a difference not only in our clothes, our skin but also around the taps, we have no more lime scale or itchy dry skin and our appliances work better.

With the new arrival of our baby girl, she can benefit from the water and feel what we feel. The hard water is officially gone.

Thank you, Nick, for introducing the water softener to us.

Suki Kairo
