change the taste  
of food, enjoy  
the full aroma by  
removing chlorine

**Enhance  
aroma and  
taste of  
hot drinks**

## How it works

### Easy installation

- Fast Bayonet lock
- No cutting out pipework required
- Just two screws

### Reinforced outer body

### Reduces particles in suspension

This filter significantly reduces the quantity of particles such as iron and lead

### Active carbon made from natural high quality coconut shell

### Quality filter

Removes chlorine that is responsible for bad odours and flavours

### Filters out large particles

### Particulate filtration

Remove  
up to **99%**  
of the chlorine  
in water

# Better for you, even better for the environment!

**Family of 4** yearly  
water consumption

**2920 litres**  
of water per year\*

**5840** plastic bottles\*\*
